## Summary

As a software engineer with a passion for learning, I am dedicated to exploring the cutting edge of technology. My technical skill set is diverse, including proficiency in programming languages such as Java, C#, C++, and Python (PyTorch, Flask), and web development technologies like React, Tailwind, Typescript, and Flask. Additionally, my hands-on experience with 3D printing, laser cutting, and microcontrollers such as Arduino and ESP32 enhances my versatility in the field. With strong problem-solving abilities and effective communication skills, I excel in both team and individual settings. I am driven to take on complex challenges, constantly seeking to grow and contribute meaningfully to innovative and impactful projects.

## Experience

### Software Engineer Intern

Bentley Systems

Jan 2024 - Present

### IoT devices testing engineering internship

Teltonika Networks

Dec 2022 - Mar 2023 (4 months)

### Product Designer

Mokykla LISPA

Jun 2022 - Dec 2022 (7 months)

## Education

### Kaunas University of Technology

Bachelor's degree, Artificial Intelligence

2022 - 2026

## Skills

Creative Problem Solving • Software Development • Communication • Computer Science • Artificial Intelligence (AI) • Python (Programming Language) • PyTorch • C++ • C# • Programming
