Nojus Skirkevičius

Versatile Developer with Expertise in AI/ML, Web Development, and Hardware Technologies

Kaunas, Kauno, Lithuania

Summary

As a lifelong learner, I am always exploring new technologies, tools, and programming languages to expand my knowledge and skills. I am particularly interested in emerging technologies such as artificial intelligence and machine learning and how they can be leveraged to solve real-world problems. Through my experience in contract work, internships, and personal projects, I have developed strong problem-solving and communication skills, as well as the ability to work effectively both independently and as part of a team. My skill set includes proficiency in various programming languages, including C#, C++, and Python, as well as web development technologies such as React, Tailwind, Typescript, and Flask. In addition to programming, I have hands-on experience in 3D printing, laser cutting, and utilizing microcontrollers like Arduino and ESP32. With my diverse range of skills, I am confident in my ability to take on complex projects and find innovative solutions. I am a driven and goal-oriented individual, always seeking new challenges and opportunities to grow and develop my abilities. As I continue on my career path as a developer, I am excited to make meaningful contributions to innovative projects and collaborate with others to create solutions that have a positive impact on society.

Experience

Teltonika Networks

IoT devices testing engineering internship

December 2022 - March 2023 (4 months)

Kaunas, Kauno, Lithuania

Mokykla LISPA

Product Designer

June 2022 - December 2022 (7 months)

Marijampolės, Lithuania

Education

Kaunas University of Technology

Bachelor's degree, Artificial Intelligence · (2022 - 2026)
